915 Broadway  
Sacramento, CA 95818

Dear Sherry:

I want to 'Thank you' for the special tour that you gave Gwen Mansbridge and me of your facility today. It is a huge successful event judging by the turnout. There were so many moms and babies going through as well as a lot of fathers/boyfriends/brothers (?) in the waiting room.

It was wonderful to see all the various services that are provided to the women served by CRP WIC. I'm sure that the women who belong to your program are gaining a lot of knowledge on breastfeeding and overcoming problems associated with breastfeeding, how to provide good nourishment for their infants/children, taking care of themselves and their children, getting jobs, keeping safe, etc. We brought back information to share with our staff, also.

If there is a need for any of your clients and those who haven't had children but are pregnant, please feel free to call if they would like to receive the services of a home visiting nurse during the course of their pregnancy. If you know of any women who are pregnant for the first time, the County has a wonderful Nurse Family Partnership Program (a home visitation program by a Public Health Nurse). Our Black Infant Health Program focuses on the African-American pregnant and parenting mothers.

Again, thank you for taking the time to show us around and explain your services. Please feel free to call if you have questions about our programs. My number is 875-5798.

Sincerely,

A handwritten signature in black ink, appearing to read "Cheryl Teruya", is written over a circular stamp or seal.

Cheryl Teruya, Health Program Manager
